PRESS RELEASE
4 April 2013

ACIFC Continues to Support Concrete Flooring Specialists

The Association of Concrete Industrial Flooring Contractors (ACIFC) has increased its representation of the concrete industrial flooring industry by welcoming Technic Concrete Floors Ltd into Contractor Membership from 1 April 2013.

Technic Concrete Floors Ltd has over 40 years' experience in the design and construction of concrete floors and offers the full range of services from the design of ground bearing and suspended ground floor slabs to laying and finishing. Combining experience in laser screed with traditional reinforcement and fibre technology, ACIFC's newest member operates on a nationwide basis with offices in Lancashire and Scotland and typical projects include factories, offices, schools and supermarkets.

ACIFC brings together the leading contractors, material suppliers and service providers within the industry and is unrivalled when it comes to providing concrete flooring experience. High performance concrete industrial floors are a crucial element in the construction of modern industrial and commercial buildings where they need to withstand the wear and tear of industrial traffic. Clients such as Airbus, DHL, Ikea, Tesco and Volvo can be confident that by specifying an ACIFC member they will be working with a competent and qualified Specialist Contractor who has the support of an established trade association.

In the last 12 months, ACIFC has increased its membership by nearly 25% and is currently offering a 25% discount on the first year's subscription for new members to enable more businesses in the sector to raise their profile as well as receive a wide range of benefits and services provided by ACIFC.

ACIFC Chairman Kevin Dare highlighted the value of ACIFC membership:

"Membership of ACIFC helps businesses in our industry to stand out from the crowd and with the discount for new members there has never been a better time to join. Times are tough but the benefits and services available from ACIFC mean members get excellent value for money from their membership and they can focus on delivering high quality projects for their clients."
