

Benefits of ACIFC Membership

The **Association of Concrete Industrial Flooring Contractors (ACIFC)** is the representative organisation for the concrete industrial flooring industry in the UK and internationally.

ACIFC membership offers a wide range of benefits and services, ensuring that companies are uniquely placed to deliver the highest quality standards to their clients.

Categories of Membership

- ❖ **Contractor** – Specialist Contractors based in the UK engaged in the construction of internal concrete industrial floors.
(Provisional Membership is available and may be offered to companies that do not meet all the criteria for membership)
- ❖ **Associate** – Suppliers of specialist floor products based in the UK including:
 - Materials such as concrete, additives, mesh reinforcement, jointing, topping and curing, and finishing
 - Plant and equipment
 - Profiled Metal Decking system
 - Technical design services, floor measurement surveys and testing
- ❖ **International** – Organisations based outside of the UK involved in concrete industrial flooring.

Benefits of Membership

- ✓ **Increased Business Opportunities** – ACIFC membership helps to raise the profile of companies in the concrete industrial flooring industry by identifying them as part of an elite group of professional and reputable market leaders. By specifying ACIFC members for their projects, clients can be confident in the knowledge that they will be working with a competent supply chain.
- ✓ **Industry Representation** – ACIFC represents the views of the concrete industrial flooring industry to government, leading client organisations and other key stakeholders in order to promote the industry, improve the business environment and raise standards. It is a Trade Association member of Build UK which is the leading representative organisation for the UK construction industry and works with the Concrete Society to develop standards within the industry.
- ✓ **Technical Support** – ACIFC members are at the forefront of technical design in the concrete industrial flooring industry, and the dedicated ACIFC Technical Committee offers a technical knowledge bank for specifiers, designers and users.
- ✓ **Professional Advice** – ACIFC members have access to free telephone helplines which provide expert support on employment, health and safety, legal and contractual, tax and business, and training issues.
- ✓ **Discounted Products and Services** – ACIFC works in partnership with a number of organisations to offer essential business products and services including employee benefit schemes, insurances, credit reports, and CRB checks.
- ✓ **Networking** – ACIFC facilitates collaborative working across the sector and the rest of the supply chain to discuss key issues, improve services and promote concrete industrial flooring. The highlight of the ACIFC calendar is the ACIFC Gala Dinner which offers an excellent networking opportunity in an open and relaxed environment.
